

KIDS SCUBA PROGRAM

Course	Outline	Extra Information
Skin Diver	Learn to snorkel and skin dive. Explore the underwater world from above and below the surface. While snorkelling is limited to the surface, as a skin diver you will be able to venture below the surface and have the opportunity to view marine life up close and personal. All ages.	Perfect for kids that have never snorkelled before. 2hr duration.
Bubblemaker	The PADI Bubblemaker course is a great way to introduce children to SCUBA diving in a pool. They will learn how to take their first breaths underwater and use SCUBA equipment.	A great way to start for 8 to 13 year olds. 3hr duration. Maximum 4 students per instructor.
SEAL Team	The PADI Seal Team is for young divers who are looking for action packed fun in confined water. The Seal Team program helps develop young diver's skills and teach them about the responsibilities of diving.	Recommended for 11 to 13 year olds. 4hr duration. Maximum 4 students per instructor.
Discover SCUBA Diving	A great introduction to the open water world. This course can be conducted as a confined water program to start and move to an open water experience with a dive on the reef or alternatively they can jump straight into the open water. This is a great introduction and a good way to see if students are interested in moving a PADI certification course.	A good introduction for kids 14yrs and older that haven't participated in the Seal Team program. Maximum 4 students per instructor.
SCUBA Diver	This two day course is perfect for those on a limited time frame. This course allows for ample dive experience and is a good warm-up for the Open Water Course, if that's your ultimate goal. On completion of this course you can dive under direct supervision of a PADI Divemaster, Assistant Instructor or Instructor to a maximum depth of 12 metres.	Perfect for a limited time frame or to get kids started before progressing to their open water certification. 14yrs and older. Maximum 8 students per instructor.

	<p>Requirements – complete a medical statement and dive medical (if required) Minimum Age – 15 years or 14 years for the Junior Scuba Diver</p>	
<p style="text-align: center;">Open Water Course</p>	<p>This is your basic certification allowing you to dive anywhere in the world up to 18 metres depth and within PADI safety requirements. If you've always wanted to learn how to SCUBA dive, discover new adventures or simply enjoy the wonder of the underwater world, this is where it starts! We offer a three day or four day course option, depending on whether or not you wish to complete all of your knowledge reviews prior to the commencement of your course or in the classroom.</p> <p>Requirements – complete medical statement and dive medical (if required) Minimum Age – 14 years</p> <p>Three Day Course Day 1 – confined water sessions 1 to 5 Day 2 – open water dives 1 & 2 Day 3 – open water dives 3 & 4</p> <p>Four Day Course Day 1 – classroom session, knowledge reviews 1 to 3 and confined water sessions 1 & 2 Day 2 – classroom session, knowledge reviews 4 to 5, final exam, confined water session 3 to 5 Day 3 – open water dives 1 & 2 Day 4 – open water dives 3 & 4</p>	<p style="text-align: center;">Maximum 8 students per instructor</p>

<h2 style="text-align: center;">Advanced Open Water Course</h2>	<p>This course is designed to improve both your diving skills and find new ways to combine your interests with your diving. Exploration, Excitement and Experiences is what this course is all about. The course is run over two days and consists of 5 training dives and one fun dive. There are 3 compulsory training dives, your deep dive, peak performance buoyancy and navigation dive and you choose the other 2 that you are interested in. Choose from underwater naturalist, underwater photography/videography, creature identification, drift diving and boat diving.</p> <p>Requirements – PADI Open Water Dive Certification Minimum Age – 15 years</p>	<p>This course is designed to develop skills even further. Work on buoyancy or extend skills through photography, fish ID, search and recovery or become an underwater naturalist. This course can be extended over a twelve month period and can be incorporated to include reef monitoring programs on the Ningaloo Reef.</p> <p style="text-align: center;">Maximum 8 students per instructor</p>

A path to follow ...

For all new students 14 years and younger we would recommend beginning with the Bubblemaker program then moving through to the Seal Team program. The next progressive step would then be to participate in the SCUBA Diver course or move straight into their Open Water course. Once certified, there is the opportunity to come and dive with us anytime. Students can also be extended by working with us to develop their reef awareness and monitoring skills.

The Advanced course is ideal to extend students diving skills and maintain their interest in diving.
